Journal of Food Engineering **10** (1989) 325–326

CONTENTS OF VOLUME 10

Number 1

Solvent Extraction of Oil and Chlorogenic Acid from Green Coffee. Part I: Equilibrium Data 1
K. DIBERT, E. CROS & J. ANDRIEU (France)

Osmotically-Induced Mass Transfer in Plant Storage Tissues: A Mathematical Model. Part I 13
CHRISTIAN J. TOUPIN, MICHÈLE MARCOTTE & MARC LE MAGUER (Canada)

Measurement of Water Activity of Saturated Salt Solutions with the Vapour Pressure Manometer 39
PIOTR P. LEWICKI (Poland)

Research Note
Rheological Properties of Clarified Pear Juice Concentrates 57
A. IBARZ, J. PAGÁN, J. GUTIÉRREZ & M. VICENTE (Spain)

Technical Note
Recovery and Concentration of Apple Juice Aroma Compounds by Pervaporation 65
EVA BENGTSSON, GUN TRÄGÅRDH & BENGT HALLSTRÖM (Sweden)

Short Communication
The Extrusion Rheology of Dehydrated Potato 73
J. M. FERDINAND, A. R. KIRBY & A. C. SMITH (UK)

Announcement 81

Number 2

Prediction of Precooking Times for Albacore (*Thunnus alalunga*) by Computer Simulation 83
R. I. PÉREZ-MARTÍN, J. R. BANGA, M. G. SOTELO, S. P. AUBOURG & J. M. GALLARDO (Spain)

Osmotically-Induced Mass Transfer in Plant Tissues: A Mathematical Model. Part II 97
CHRISTIAN J. TOUPIN & MARC LE MAGUER (Canada)

Fractal Surface of Starchy Materials Transformed with Hydrophilic Alcohols . 123
TOSHIMASA YANO & TADASHI NAGAI (Japan)

Computerized Control Strategies for a Steam Retort 135
T. A. GILL, J. W. THOMPSON, G. LEBLANC & R. LAWRENCE (Canada)

Research Note
Rheology of Wine Musts During Fermentation 155
A. LÓPEZ, A. IBARZ, J. PAGÁN & M. VILAVELLA (Spain)

Announcement 163

Journal of Food Engineering (**10**) (1989) — © 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Number 3

A Comparative Study of the Conveying Performance of Screws in a Twin-Screw Co-rotating Extrusion-Cooker 165
A.-L. OLLETT, Y. LI, R. PARKER & A. C. SMITH (UK)

A Review of Puffing Processes for Expansion of Biological Products . . . 183
F. A. PAYNE, J. L. TARABA & D. SAPUTRA (USA)

Solvent Extraction of Oil and Chlorogenic Acid from Green Coffee. Part II: Kinetic Data. 199
K. DIBERT, E. CROS & J. ANDRIEU (France)

Drying Kinetics for a Single Droplet of Skim-Milk 215
G. FERRARI (Italy), G. MEERDINK & P. WALSTRA (The Netherlands)

Research Note
Rheological Behaviour of Clarified Banana Juice: Effect of Temperature and Concentration 231
K. E. KHALIL (Egypt), P. RAMAKRISHNA, A. M. NANJUNDASWAMY & M. V. PATWARDHAN (India)

Number 4

The Influence of a Barrel-Valve on the Degree of Fill in a Co-rotating Twin-Screw Extruder 241
D. J. VAN ZUILICHEM, T. JAGER, J. A. J. DE RUIG & E.-J. SPAANS (The Netherlands)

Energy Consumption, Rate of Cooling and Weight Loss in Beef Chilling in UK Slaugher Houses 255
ANDREW GIGIEL & PAUL COLLETT (UK)

Extrusion-Cooking of Wheat Four–Carrot Mixture 275
J. VAINIONPÄÄ, S. S. TANTCHEV, Y. MÄLKKI & A. MUSTRANTA (Finland)

Prediction of Folic Acid Retention during Spray Dehydration 287
JAMES G. HAWKES & RICARDO VILLOTA (USA)

Research Note
Variation with Temperature and Soluble Solids Concentration of the Density of a Depectinised and Clarified Pear Juice 319
A. IBARZ & R. MIGUELSANZ (Spain)
